

TOWMASTER[®] TRAILERS

MODELS:
T-5T, T-5TSL

The Standard for the Road Ahead!

Some equipment shown may be optional

Positive locking (over-center) latch system keeps deck secured to the frame.

Low tilt angle to easily load small equipment.

The T-5TSL includes the "SL" (Scissor Lift) option with ramps to lower the loading incline.

Description:

The T-5T is a pan type tilt-deck trailer designed for hauling small equipment. The deck features white oak wood and 7-inch high sides. The low deck height offers a shallow tilt angle that allows small equipment to easily climb the incline. For scissor lifts, an "SL" option adds ramps for an even lower load angle. The T-5T features a rubber-ride axle for a smooth ride, electric brakes, an adjustable hitch, and a positive locking (over-center) latch system to safely keep the deck secured to the frame.

Quick Specs:

- 16.5" deck height (empty)
- 77" deck width
- Pan style deck
- Electric brakes
- Torflex[®] axle
- Adjustable hitch
- Positive latch system
- LED lights and sealed wiring
